Tisha Movaliya

React js Developer
8469855752 | tishamovaliya@gmail.com

Professional Summary

Frontend Developer (Fresher) with hands-on experience in HTML, CSS, JavaScript, jQuery, Bootstrap, and React. Skilled in building responsive web pages, dynamic forms, CRUD functionality, and interactive UI components. Familiar with React hooks, state management, component-based architecture, DOM manipulation, and event handling. Strong understanding of debugging, performance optimization, and cross-browser compatibility. Enthusiastic to contribute and grow as a frontend developer.

Skills

Frontend: HTML, CSS, Bootstrap, JavaScript, jQuery, React
Database: SQL
Tools & Concepts: Responsive Design, CRUD Operations, State Management, DOM Manipulation, Debugging

Projects

1. Gift Shop E-Commerce Website | College Project

- Developed a React-based e-commerce gift shop website with separate user and admin panels as a group project during college.
- Implemented user authentication (register/login), protected routes, and role-based access using Context API.
- Built dynamic cart functionality including add, remove, increase/decrease quantity, and real-time total amount calculation.
- Designed checkout flow with form handling and order placement, and profile section to view order status (pending/approved).
- Created admin dashboard UI to manage users, products, and update order status.
- Integrated frontend with backend APIs built using Node.js, Express, and MongoDB.
- Used ChatGPT for development support, debugging, and optimization.
- Technologies: HTML, CSS, JavaScript, React, Node.js, Express.js, MongoDB

2. Personal Portfolio Website | Self Project

- Developed a fully responsive personal portfolio using React to showcase skills, projects, and resume.
- Implemented animated hero section, skill progress bars, and smooth navigation.
- Focused on clean design, mobile responsiveness, and performance optimization.
- Technologies: HTML, CSS, JavaScript, React

3. Finance Management App | Self Project

- Built a React-based finance management application to track income, expenses, and balance.
- Implemented CRUD operations, transaction filtering, data persistence with localStorage, and React Router for navigation.
- Used ChatGPT for development support, debugging, and optimization.
- Focused on responsive UI, clean code, and efficient state management.
- Technologies: HTML, CSS, JavaScript, React

Education

Bachelor of Computer Applications (BCA) | Sutex Bank College Of Computer Application & Science
Expected: 2023 – 2026
